

Helping to Make Cyber Compliance a Strategic Advantage

In today's regulatory landscape, cybersecurity is more than an IT issue: it is a compliance priority. Silver's Cyber Compliance division helps private fund managers build and maintain risk-based, audit-ready programs that meet the expectations of regulators and investors alike.

Our process is grounded in practical insight, regulatory intelligence and deep experience advising private equity, venture capital, hedge fund and crypto/digital asset managers on cybersecurity governance, risk mitigation and compliance readiness.

Core Cyber Compliance Services

Offered as an ongoing support engagement or on a project basis, Silver's Core Cyber Compliance services provide structure, accountability and strategic insight across the following five foundational areas:

- **Policy Development and Maintenance**
Creation and upkeep of WISPs, IRPs and BCPs tailored to your operations and risk profile.
- **Cyber Risk Assessment**
Identify vulnerabilities, assess threats and receive prioritized recommendations to mitigate risks.
- **Cyber Insurance Review**
Evaluate coverage adequacy against your business model and regulatory exposure.
- **Cybersecurity Training**
Annual, firm-wide training to build awareness and reduce human error.
- **Cybersecurity Advisory & Breach Response**
Ongoing support for investor due diligence, system oversight and incident response coordination.

Silver's sole focus is to help firms develop programs that are customizable, defensible and fully integrated with broader compliance efforts so you are not just secure, but also prepared. Whether building a cybersecurity program from the ground up or enhancing an existing framework, Silver partners with firms to deliver regulator-ready, investor-trusted solutions that are designed to strengthen their cybersecurity posture and demonstrate accountability.

Supplemental Cyber Compliance Services

Silver offers a suite of supplemental services that can be integrated into your ongoing cyber compliance initiative or engaged individually to address specific risks, satisfy investor expectations or enhance your overall cyber readiness. This includes:

- **Vendor Due Diligence** Assessment of key service providers' cybersecurity controls.
- **Penetration Testing**
Simulated real-world attacks to identify exploitable vulnerabilities.
- **Vulnerability Scanning** Regular scans to detect and prioritize technical risks.
- **Phishing Simulations**
Campaigns to evaluate employee awareness and reinforce security behaviors.
- **Incident Response Tabletop Exercises**
Breach scenario drills to test your incident response strategy.
- **Annual Cyber Compliance Program Review**
A holistic evaluation of your cyber program, available as a standalone review or alongside Silver's Annual Compliance Review.
