PRI Reporting: Comprehensive Support

Silver leads and manages a Signatory’s Transparency Reporting process from start to submission.

Silver will, among other things:

- Manage data and supporting documentation related to each indicator; track outstanding indicators, including following up with responsible parties to finalize each indicator; maintain documentation related to a Signatory’s rationale for each indicator; and determine Signatory’s raw assessment score ahead of submission¹
- Draft and finalize Senior Leadership Statement
- Enter data into PRI Data Portal and manage timely submission
- Conduct final review of all modules with senior leadership, as required to satisfy confidence building measures indicators
- Silver will review PRI guidance and/or interact with PRI assessments teams to ask for feedback on a no-names basis, as needed

Third-Party Review of PRI Transparency Report

Silver will comprehensively review and test a Signatory’s Transparency Report ahead of submission.

Silver will, among other things:

- Review a firm’s ESG program and associated documentation against the SEC’s ESG-focused risk alerts, enforcement actions, proposed rules, exam priorities and other communications
- Conduct interviews with relevant personnel who implement and oversee ESG practices
- Assist firm to build or update existing practices based on identified enhancements
